<Title>Distributed Image Loading Example </Title>
<h1>Distributed Image Loading Example</h1>
```

One of the major features of the world-wide-web is the ability to retrieve images from sites distributed around the world. These images can then be combined with a text document retrieved separately and presented as a single "virtual" document to an end-user. This HTML document demonstrates this capability.<p>

This document was fetched from a server in northern California.

However, this image:
